TDS/PDS--C. Qualification Criteria--	The required average annual construction turnover shall be greater than Tk. 200.00 (Two hundred) Crore over the last 5 (Five) years. [the required average annual construction turn over is recommended to be about twice the estimated annual cash flow for the Contract; however the multiplier may vary from 1.0 to 2.0, the larger the Contract size the lesser the multiplier should be. The period may be best three (3) years in the last five (5) years or best five (5) years in the last ten (10) years (as appropriate) ; years counting backward from the date of publication of IFT in the newspaper] Example: Estimated Contract Value: Tk 24 Cr. Contract period: 18 months Estimated Annual Cash Flow: Tk 16 Cr. Required average annual construction turn over: Tk 24 Cr., using a multiplier of 1.5. [for Tenders where the package contains more than one (1) lot, this qualification requirements shall be mentioned separately for each lot in the package] The minimum amount of liquid assets or working capital or credit facilities of the Tenderer shall be Tk. 25.00 (Twenty Five) crore. [usually the required liquid asset is the equivalent of 2-6 months payment flow at the average construction rate (straight line distribution), accessible or available after taking into account the financial requirements of existing commitments. The actual period will depend on the speed with which the PE will pay the Contractor's monthly certificate, allowing time to prepare an invoice, for the Project Manager's time to certify it, and at least one month contingency for preparing the cheque and making actual payment. Example: Contract Value: Tk 24 Cr. Contract period: 18 months Assuming work time: 1 month Invoice period: 0.5 month Certification Time: 0.5 month Contingency Time: 1 month Therefore, the minimum required liquid asset will be Tk 4 Cr., i.e. 3 months cash flow based on the above assumptions.] [for Tenders where the package contains more than one (1) lot, this qualification requirements shall be mentioned separately for each lot in the package]	The required average annual construction turnover shall be greater than Tk. 40.00 (Forty) Crore over the last 5 (Five) years.
